

Baseplate - Base1

All dimensions in mm

In situations where a 19" rack system cannot be used, all models using JVL's standard cabinet can be mounted on a plane surface using a Baseplate.

The Baseplate is a 4mm black aluminium plate which is fixed to the unit cabinet and has provision for 6 screws for mounting on a plane surface, for example inside a control cabinet.

Base1 can be used with the following JVL products:

- AMC10x, 11x and 12x
- DMC10
- SMC24xx and SMC26xx
- SMC17
- SMC30x
- SMD10x3 and SMD10x4
- SMD11xx
- SMD15x3 and SMD15x4
- SMD30x3 and SMD30x4
- PSU40-2 and PSU40-4
- PSU80-2 and PSU80-4
- PSU150-2 and PSU150-4
